Emory University: Emory College of Arts and Sciences
ECAS Course Evaluations (Fa 2024)

Course: QTM-151-2: Intro.to Stat.Computing II - Fall 2024
Instructor: Danilo Freire *
Response Rate: 24/36 (66.67 %)

7 - In general, what were your expectations for this course?

Response Rate	24/36 (66.67%)
<ul style="list-style-type: none"> • Learning sql. • To get a fundamental understanding of Python and learn how to use different functions. • I thought the course would be slower paced and we would learn less, but I've been enjoying how much we've learned in this course! • By the end of this course I'll know how sort data and do data visualiations. • Learning some basic coding skills and get to know the computer programming structure. • Learn Python • I used to be someone who was very afraid of programming, but this course made me truly fall in love with it. Professor Danilo Freire is the best professor I have ever met at Emory University. He is passionate, caring, and attentive to his students. His vivid language and engaging teaching style have made everyone deeply love his course and Python. • Leanr some basics about Python • A standardization of python knowledge to be used in future courses and academic or professional endeavors • To get a basic understanding of python • NA • using python as a tool for data analysis • Be more familiar with python. • Teach me how to write basic code functions. • learn python • Learn basic python • learn fundamentals of python • I expected more projects, but I enjoyed it • Learning the basics of python • I expected to gain a strong foundation in Python programming, with a focus on practical applications for data analysis and quantitative problem-solving. I anticipated learning key concepts such as writing efficient code, working with libraries, and debugging, while building skills that could be applied to real-world scenarios in my major and future career • Learning python • I expected this course to be a fairly standard intro to python class and believed i would be relearning QTM 150 but in python • Learn basic python skills. • coding 	

8 - Were your expectations realized?

Response Option				Weight	Frequency	Percent	Percent Responses		Means									
Yes				(3)	21	87.50%												
Partially				(2)	2	8.33%												
No				(1)	0	0.00%												
I had no expectations for this class				(0)	1	4.17%												
							0	25	50	100	Question		Dept		ECAS			
Response Rate		Mean	STD	Median	Dept		Mean	STD	Median	ECAS		Mean	STD	Median				
24/36 (66.67%)		2.91	0.29	3.00	828		2.36	0.74	3.00	828		2.36	0.74	3.00				

- I feel as if my expectations were partially met only because I feel as if I learned much more in this class than I initially thought I would. Dr. Danilo's enthusiasm for the course material honestly made me much more engaged during class, so I really appreciated all the differences between R and Python.

Emory University: Emory College of Arts and Sciences
ECAS Course Evaluations (Fa 2024)

Course: QTM-151-2: Intro.to Stat.Computing II - Fall 2024
Instructor: Danilo Freire *
Response Rate: 24/36 (66.67 %)

9 - What parts of this class interested you the most?

Response Rate 24/36 (66.67%)

- SQL
- I enjoyed the energy of the professor and the overall structure of using VS Code in class as it helped with learning information.
- SQL was very interesting because I didn't have a lot of exposure to it prior
- The kahoot game at the beginning of every class.
- Homeworks
- Coding and Cahoots
- The interaction with the instructor during the course! I really learned a lot.
- For doing the online Kahoot
- The wide variety of python applications and integration of SQL
- the final project
- SQL
- data cleaning, and the professor was very passionate about the materials!
- Lecture. Dr. Freire teaches the class very well.
- Professor's passion
- kahoot
- subsetting and graphing
- Professor's approachability
- The professor was awesome
- SQL
- The parts of QTM 151 that interested me the most were working on hands-on projects and applying Python to real-world scenarios.
- The SQL part
- data analysis and regression
- lectures
- python applications

Emory University: Emory College of Arts and Sciences
ECAS Course Evaluations (Fa 2024)

Course: QTM-151-2: Intro.to Stat.Computing II - Fall 2024
Instructor: Danilo Freire *
Response Rate: 24/36 (66.67 %)

10 - What parts of this class interested you the least?

Response Rate	24/36 (66.67%)
---------------	----------------

- The introduction part (as I have prior experience with Python)
- N/A
- None
- The quiz.
- Classes
- The Try it yourself
- This course is perfect, no downsides.
- N/A
- The graphing portions
- the assignments
- functions
- loops
- Final project
- Difficulty of code
- quiz
- sql
- NA
- N/A
- none
- The parts of QTM 151 that interested me the least were repetitive coding exercises that lacked variety
- text
- time conversions
- quiz
- n/a

11 - Any suggestions for how this course might be improved (e.g., parts that should have received more or less attention; topics or exercises that could be added, etc.)?

Response Rate	3/36 (8.33%)
---------------	--------------

- I think the beginning was a little slow paced. It set an impression on me that the class would be slow paced. But after a couple weeks the class got super faced paced and has kept up that pace since. I wish it was more fast paced in the beginning. Also I wish more time was spent on teaching us how to handle VS Code, syncing with GitHub, using the SQL notebooks, just setting up the overall software because I am still a little confused on it.
- Have canvas be a more integrated part of the course
- I really enjoyed QTM 151, but I think it could be improved by incorporating more project-based learning where students can tackle real-world problems using Python. For example, a capstone project could allow us to integrate everything we've learned and apply it creatively.

12 - On 1-5 scale, how confident did you feel about using Python before taking this class? (1=not confident at all; 5=very confident)

Response Option				Weight	Frequency	Percent	Percent Responses												
1				(1)	16	66.67%	<div><div></div></div>		<div><div></div><div>1.54</div><div></div><div>1.54</div><div></div><div>1.54</div></div>
